SUPERSIGNAL

SuperSignal shares the functionalist design philosophy and uncompromising quality ethos of our multi-award-winning SuperConnect hybrid radio, ensuring that it is truly a product without equal in the DAB radio category.

SuperSignal is equipped to receive DAB and DAB+ broadcasts, as well as traditional FM with RDS. Bluetooth® support is also included, meaning users can wirelessly stream music from their iPhone, Samsung, Windows Phone, Blackberry or other Bluetooth enabled device, including laptops and tablets – with no physical docking necessary. The addition of CSR's aptX® technology means that where supported by the transmitting device, streaming music will be at CD quality rather than the lower bit rate MP3 quality of standard Bluetooth.

Specifications

- DAB, DAB+ and FM Tuner with RDS
- Bluetooth® wireless streaming with CD quality aptX® technology
- Graphical OLED display with secret-until-lit lens
- Intuitive joystick controlled user interface
- Digital alarm clock functionality with sleep and snooze
