

PHILIPS
Speak. Send. Done.

Smart Dictation

With our flexible, browser-based, on-demand cloud solution Philips SpeechLive going from speech-to-text has never been easier. We offer you full mobility. You can now take control of your entire dictation workflow, no matter if you are in the office or on the go

Available with both SpeechLive packages:

Your assistant

Option 1 - Send your dictation to your secretary

Send dictations or recordings of meetings directly to your secretary for transcription using the Philips SpeechExec Transcription solution. Use the SpeechLive cloud app for dictation and transcription.

SpeechLive Transcription Service

Option 2 - Transcription Services Pay as you go.

Simply transfer money to your SpeechLive account and every time you send something to the transcription service, the corresponding amount will be deducted from your balance. To dictate a full page of text you will need on average three to five minutes.

Available Transcription Services

Pricing per minute of dictation or meeting recording

1 speaker	+ priority	2 speakers	3 speakers	4-5 speakers	6+ speakers
R 27.00	+25%	R 51.00	R 65.00	R 71.00	R 85.00

Delivery time will depend on the file length and number of speakers:

- A dictation with one speaker and up to 120 min length will take up to 24 hours.
- A dictation with two speakers and up to 180 min length till take up to 72 hours.
- Dictations marked as "priority" with up to 25 min*** length will take up to 5 office hours.

Transcription is billed in full-minute increments and rounded up to the next full minute.

** The price for 6 and more speakers is an approximate indication. The actual price will be determined upon review of the dictation and you will receive a quote by email.

*** Priority dictations which exceed 25 minutes are automatically changed to non-priority dictations. User will be notified by email.

Option 3 - Have your dictation transcribed via Speech Recognition

SpeechLive Speech Recognition Service

If you are looking for an almost immediate transcription of your notes, tasks or simple documents, we recommend our SpeechLive speech recognition software. All you have to do is speak and send off your recordings. The speech recognition service will do the typing for you and you get your finished text files straight to your inbox.

What you get with the Philips SpeechLive Advanced Business Package

- Included in the above is 10 Free minutes of Speech Recognition Service per user per month
- For any additional services required, we will require a separate order.
- Price per minute of dictation after the free 10 minutes will be R 6.20 incl VAT per minute.
- To use this, an initial bundle option of 100 minutes is optional at R 620 incl VAT.

What you get with the Philips SpeechLive Unlimited Business Package

Included in the above is unlimited Speech Recognition per user per month.

Please note that this is available for dictation only. Speech recognition will not work with multiple voices in a meeting.
